PROFESSIONAL SUMMARY

Full Stack Developer with experience in building and enhancing web and mobile applications using React.js, Next.js, React Native, TypeScript and Node.js. Experienced in implementing new features, optimizing application performance, integrating payment systems, developing REST APIs and building AI-powered workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C++, SQL, HTML5, CSS3

Frontend and Mobile: React.js, Next.js, React Native, Expo, Redux Toolkit, Tailwind CSS, Framer Motion, Server-Side Rendering (SSR), Responsive Web Design

Backend and Databases: Node.js, Express.js, FastAPI, REST APIs, WebSockets (Socket.io), JWT Authentication, MongoDB, Prisma ORM, Payment Gateway Integration (Cashfree, PayU)

Tools and DevOps: Git, GitHub, Docker, AWS (EC2), CI/CD pipelines, Postman, MongoDB Compass

Core CS: Data Structures and Algorithms (200+ LeetCode problems solved), Operating Systems, DBMS

WORK EXPERIENCE

Full Stack Developer | MECNTEC *Aug 2026 - Present*

- Enhanced and optimized existing real estate CRM modules using React.js, Node.js, Express.js and MongoDB, improving property tracking, lead management and client workflows.
- Implemented new features and integrated AI voice agents for lead qualification, appointment booking and automated follow-ups, reducing manual outreach effort by approximately 40%.
- Resolved 20+ production issues across frontend, backend and database layers and improved API response times by 25%.

Associate Software Engineer | Medro Hi-Tech Symbol | **MyStayInn — Live** *Nov 2025 - Jul 2026*

- Joined as a trainee and converted to full-time in Apr 2026; developed and deployed the MyStayInn mobile application using React Native, integrating 15+ REST APIs and core property-management workflows.
- Implemented Cashfree payment workflows and webhook integrations, reducing payment processing latency by 20% through frontend and backend optimizations.
- Reduced screen load times by 30% across React.js and React Native applications through lazy loading, code splitting and memoization, improving application performance and user experience.
- Built mobile-first UI components for Android and iOS and managed global application state using Redux-Saga.

Associate Software Developer Intern | Prestigious Gaming | **Prestigiousgaming — Live** *Apr 2025 - Jun 2025*

- Developed the company's production website using React.js and Tailwind CSS, implementing responsive landing, features, mission and company-culture sections.
- Collaborated with the team to implement responsive UI components and optimize the website across desktop and mobile devices.

PROJECTS

Karigar, Diamond and Jewellery Commerce App | React Native, Expo, TypeScript, FastAPI, PayU | *In Progress*

- Developing a cross-platform diamond and jewellery commerce app for iOS, Android and web using React Native and Expo, with a modular service layer for scalable backend feature integration.
- Developing FastAPI catalogue and order services covering search, product detail and server-verified PayU payments.
- Integrating a retrieval-augmented generation (RAG) AI concierge for diamond recommendations and comparisons, plus live gold and diamond rate tracking.

SIX, Buy and Sell Platform | React.js, Next.js, Redux-Saga, REST APIs *live link*

- Developed marketplace workflows for vehicle and property listings, enabling buyers, sellers and dealers to create, manage and discover listings.
- Managed asynchronous state with Redux-Saga and shipped production features with the backend team.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering *2021 - 2025*

Shri Ram Murti Smarak College of Engineering and Technology
